<u>Summary:</u> Revised Rate Comparison Attachment to May 31, 2013 Letter -- Does Not Affect Tariff			
E2013-158	6/3/13	7/2/13	70
<u>Summary:</u> Williston Telephone Company is filing this tariff change to comply with the directives of the FCC's November 18, 2011 USF/ICC Transformation Order, FCC 11-161, and to make related changes including reformatting and updating the tariff to concur in the Company's current interstate tariff terms and conditions and restructuring originating intrastate transport to conform to terminating intrastate transport structure.			

INTRASTATE ACCESS SERVICE

Regulations, Rates, and Charges
applying to the provision of Intrastate
InterLATA Access Service for Toll Carriers authorized
by the South Carolina Public Service Commission to furnish
such Intrastate Communications within the operating territory of

Williston Telephone Company d/b/a TDS Telecom

in the State of South Carolina

as provided herein.

All material contained herein is new.

This tariff is filed (1) in accordance with the Rules and Regulations governing the filing of tariffs as prescribed by the South Carolina Public Service Commission, (2) in compliance with the Federal Communications Commission's Third Report and Order in CC Docket No. 78-72, Phase I, adopted December 22, 1982 and released February 28, 1983, as modified by the Commission's Memorandum Opinion and Order, adopted July 27, 1983 and released August 22, 1983, (3) in compliance with the Modification of Final Judgment entered August 24, 1982, in *United States v. Western Electric Co., et al.* (Civil Action No. 82-0192), and (4) in accordance with the South Carolina Public Service Commission Order No. 92-889, Docket No. 92-094-C, and the South Carolina Intrastate InterLATA Settlement Agreement and Stipulation issued October 16, 1992.

The name, title, and street address of this tariff's Issuing Officer are located on the bottom of Page 1, the Check Sheet.

Access Services are provided by means of wire, fiber optics, radio, or any other suitable technology or a combination thereof.

Reference to Other Tariffs

Whenever reference is made in this Tariff to other Tariffs of the Telephone Company, the reference is to the tariffs in force as of the effective date of this tariff, and to amendments thereto and successive issues thereof.

INTRASTATE ACCESS SERVICE

General Concurrence

For Intrastate Access Services, Williston Telephone Company d/b/a TDS Telecom, hereinafter referred to as the Telephone Company, assents to, adopts and concurs with the terms and conditions for the provision of Access Services as specified in the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists, and as may be subsequently modified, with exceptions as noted in the following sections.

EXCEPTIONS

For Switched Access Services, the Company will concur with the John Staurulakis, Inc. (JSI) Access Services Tariff No. 1 filed with the Federal Communications Commission as such tariff now exists and may be subsequently modified, for Switched Access terms, conditions and terminating rates.

(N)
|
(N)

INTRASTATE ACCESS SERVICE

1. Application of Tariff

The Telephone Company assents to, adopts and concurs with the terms and conditions for the provision of Access Services as specified in this section of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists, and as may be subsequently modified, with exceptions as noted below.

- 1.1 This tariff contains regulations, rates and charges applicable to the provision of carrier common line, switched access and special access service, and miscellaneous services, hereinafter referred to collectively as service(s), provided by the Telephone Company, Intrastate InterLATA Toll Carrier(s), hereinafter referred to as IC(s).
- 1.2 The provision of such services by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with the IC for the furnishing of any service.
- 1.3 The regulations, rates and charges contained herein are in addition to the applicable regulations, rates and charges specified in other tariffs of the Telephone Company which are referenced herein.
- 1.4 This tariff contemplates no subscriber (end user) charge.
- 1.5 The term "LATA" refers to Local Access Transport Area.

INTRASTATE ACCESS SERVICE

2. General Regulations

2.1 – 2.6 General Regulations for this tariff are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists and as may be subsequently modified.

- 2.1 Undertaking of the Telephone Company
- 2.2 Use
- 2.3 Obligations of the Customer
- 2.4 Payment Arrangements and Credit Allowances
- 2.5 Connections
- 2.6 Definitions

Exceptions to the above-referenced NECA Tariff sections are as follows:

2.7 Identification and Rating of VoIP-PSTN Traffic

(A) Scope

- (1) VoIP-PSTN Traffic is defined as traffic exchanged between the Telephone Company end user and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates by the Federal Communications Commission in its Report and Order in WC Docket No. 10-90, *etc.*, FCC Release No. 11-161 (November 18, 2011) ("FCC Order") and the FCC's Second Order of Reconsideration (12-47) released April 25, 2012. Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Toll VoIP-PSTN Traffic") from the customer's traditional intrastate access traffic, so that such Toll VoIP-PSTN Traffic can be billed in accordance with the FCC Order. The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over Public Switched Telephone Network (PSTN) facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment. (T)
(T)

INTRASTATE ACCESS SERVICE

2. General Regulations (Cont'd)

2.7 Identification and Rating of VoIP-PSTN Traffic (Cont'd)

(B) Rating of VoIP-PSTN Traffic

The Toll VoIP-PSTN Traffic will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rates as specified in the Telephone Company's applicable federal access tariff or the Telephone Company's applicable tariffed intrastate switched access rates as specified in the Telephone Company's applicable state access tariff, whichever is lower. Hereafter, these billed rates will be referred to in this tariff as relevant "VoIP Rates".

(T)
(N)
|
(N)

(C) Calculation and Application of Percent-VoIP-Usage Factor

(1) Terminating Traffic

There is no need to determine the percentage of VoIP usage for purposes of applying VoIP Rates to terminating Toll VoIP-PSTN Traffic because the Telephone Company's intrastate terminating switched access rates are at or below the equivalent interstate terminating switched access rates.

(D) (N)

(2) Originating Traffic

In addition, there is no need to determine the percentage of VoIP usage for purposes of applying VoIP Rates to originating Toll VoIP-PSTN Traffic because the Telephone Company's intrastate originating switched access rates are at or below the equivalent interstate originating switched access rates.

- 11.1 Regulations pertaining to the Special Facilities Routing of Access Service are contained in the following section of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists and as may be subsequently modified.

11.1 Description

INTRASTATE ACCESS SERVICE

12. Specialized Service or Arrangements

- 12.1 Regulations pertaining to Specialized Service or Arrangements are contained in the following section of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists and as may be subsequently modified.

12.1 General

INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

13.1 – 13.3 Regulations pertaining to the Additional Engineering, Additional Labor and Miscellaneous Services are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. (“NECA”) as such tariff now exists and as may be subsequently modified.

- 13.1 Additional Engineering
- 13.2 Additional Labor
- 13.3 Miscellaneous Services
- 13.6 Unauthorized Presubscribed Interexchange Carrier (PIC) Change

Exceptions to the above-referenced NECA Tariff sections are as follows:

13.4 IntraLATA Presubscription13.4.1 General

- (A) IntraLATA Presubscription is a procedure whereby a customer designates to the Telephone Company the carrier which the customer wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a customer, who has presubscribed to an intraLATA toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis.

All intraLATA toll message calls are subject to IntraLATA Presubscription. An intraLATA toll message call is a completed call on the public switched network between the originating location and a terminating location within a given LATA, but outside the local service area of the originating location.

All 0- calls, calls to 1-HNPA-555-1212 or 555-1212, 411, 611, 911, Public Announcement Service calls (976-XXXX), and all local calls, including Extended Area Service (EAS) and Expanded Local Calling calls, are excluded from IntraLATA Presubscription. Calls using the 500, 700, 800 series, or 900 service access codes shall be routed in accordance with the North American Number Plan.

INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)13.4 IntraLATA Presubscription (Cont'd)13.4.1 General (Cont'd)(B) IntraLATA Presubscription Options

Option A: Customers may select any carrier choosing to provide intraLATA toll service as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Existing customers who do not select a presubscribed carrier for intraLATA toll calls subject to presubscription in the allotted time period, will be assigned to their current intraLATA carrier.

Option C: New customers who fail to make a selection for their presubscribed carrier for intraLATA toll calls subject to presubscription will be considered a "no pic." They will then be required to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

(C) Rules and Regulations

Customers of record as of the effective date of this tariff will retain their current dialing arrangement until they request that their dialing arrangements be changed.

Customers of record or new customers may select either Options A, B, or C for intraLATA Presubscription.

Customers may change their Option and/or their presubscribed IntraLATA toll carrier at any time subject to charges specified in Section 17.4.4 (I).

(D) IntraLATA Presubscription Charges1. Application of Charges

Customers will be allowed to make an initial PIC free of charge during the first ninety (90) days following the implementation date. After the initial PIC or the lapse of the first ninety (90) day period, charges will be levied for each subsequent change of IntraLATA PIC.

INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)13.4 Presubscription (Cont'd)13.4.1 General (Cont'd)(D) IntraLATA Presubscription Charges (Cont'd)

1. Application of Charges (Cont'd)

New local service customers will be asked to select a carrier(s) for their intraLATA and interLATA calls subject to presubscription at the time they place an order with the Telephone Company for local exchange service. If the new customer is unable to make a selection, at that time, the new customer will be read a random listing of all available intraLATA toll carriers to aid their selection. If the new customer is still unable to make a selection, at that time, the Telephone Company will inform the new customer that he/she will be given ninety (90) days in which to inform the Telephone Company of an intraLATA toll presubscription carrier choice at no charge. The new customer will also be informed that the Telephone Company will assess a charge for any selections made after the ninety (90) day window and that until such a selection is made, the customer will be required to dial a carrier access code to route all intraLATA toll calls.

After a customer's initial selection for a presubscribed intraLATA toll carrier, for any change thereafter, an IntraLATA Presubscription Change Charge, as set forth in Section 17.4.4 (I) will apply. The applicable presubscription charge for each interLATA PIC Change submitted is set forth in the National Exchange Carrier Association Tariff FCC No. 5, Section 13.4 as such tariff now exists, and as may be subsequently modified.

INTRASTATE ACCESS SERVICE

14. Exceptions to Access Service Offerings

Regulations pertaining to Exceptions to Access Service Offerings are contained in the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. ("NECA") as such tariff now exists and as may be subsequently modified.

INTRASTATE ACCESS SERVICE

15. Access Service Interfaces and Transmission Specifications

15.1 – 15.3 Regulations pertaining to the Access Service Interfaces and Transmission Specifications Services are contained in the following sections of the Access Service Tariff, FCC No. 5, filed with the Federal Communications Commission by the National Exchange Carrier Association, Inc. (“NECA”) as such tariff now exists and as may be subsequently modified.
